This luncheon was inaugurated last year in memory of Al Culbreth Jr. Al played a vital role in the lives of many family, friends and clients and was active in the community. The Culbreth family is proud to join the community in this educational event with the proceeds benefiting the families that are served by Rainbow Village.

This is an unbiased, high-quality educational event with the objective of delivering an assessment of current events driving the global macro economy. Dr. Sam Thomas, a financial economist and investment scientist will headline the event. Dr. Thomas' presentation will focus on an objective analysis and discussion of the latest issues facing the macro economy. The content of Dr. Thomas' presentation will be relevant to individual investors, business owners, corporate decision makers, wealth managers and individuals with an interest in the macro economy.

This event is open to the community. Sponsorships from local individuals and businesses are welcomed, encouraged and appreciated. This event would be an appropriate setting at which you could host friends and clients to engage in a highly educational event with stimulating discussion. Thank you in advance for your support of this event and support of Rainbow Village.
