The Issue

Every day, there are families with children who find themselves in unsafe environments with no place to turn, no one to turn to, and no place to call home.

How We Help

We provide a safe housing community and supportive services that allow our residents to focus on their individual journey toward economic self-sufficiency. We utilize a model that takes different goals and starting points into consideration. This allows residents to see their progress and build confidence in the continuation of their work.

Our Bridge to Economic Self-Sufficiency is our programming guideline for residents that focuses on five core areas:

**Family
Stability**

Well-Being

**Financial
Management**

**Education
& Training**

**Employment
& Career**
